CAREER FAIR SPRING 2016

UNIVERSITY of HOUSTON | ENGINEERING

DATE

THURSDAY, FEB. 11TH

TIME

10:00 A.M. - 4:00 P.M.

PLACE

UH HILTON HOTEL

RSVP

@CAREER.EGR.UH.EDU
/ECONNECTION

HOW TO DRESS

BUSINESS ATTIRE REQUIRED TO ATTEND

BUSINESS ATTIRE AND SUIT JACKET REQUIRED

SUIT AND TIE REQUIRED FOR MEN

LADIES MAY WEAR PANT/SKIRT SUIT, OR ONE PIECE DRESS

American Bureau of Shipping

Since its founding in 1862, the American Bureau of Shipping (ABS), a New York not-for-profit corporation, has been committed to setting standards for safety and excellence as one of the world's leading ship classification societies.

The mission of ABS is to serve the public interest as well as the needs of our members and clients by promoting the security of life and property and preserving the natural environment.

ABS has been at the forefront of marine and offshore energy innovation for more than 150 years. In a constantly evolving industry, ABS works alongside its partners tackling the most pressing technical, operational and regulatory challenges so the marine and offshore industries can operate safely, securely and responsibly.

BP Lower 48

BP's US Lower 48 (L48) Onshore business operates across a vast US geography, from Texas to Wyoming. The business manages a diverse portfolio which includes an extensive unconventional resource base of about 7.5 billion barrels of oil equivalent across 5.5 million gross acres in some of the largest and most well-known basins in the US. Headquartered in Houston, Texas, and District offices in Durango, CO and Oklahoma City, OK, the L48 employs over 1,200 people across six states, operates more than 9,600 producing wells and has 70,000 royalty owners. Our mission is to become a premier, market visible, high return onshore exploration & production company that consistently increases asset value. We achieve this by establishing a high performance culture based on empowerment and accountability.

Technip USA, Inc.

With a workforce of 22,000 people worldwide, and annual revenues of almost 8 billion euros, TECHNIP ranks among the 5 major players in full-service engineering and construction services in the field of hydrocarbons and petrochemicals.

Technip operates in three segments of the world oil and gas market: Subsea, Offshore and Onshore. On behalf of its clients, for the most part international and national oil companies; Technip executes infrastructure projects that are increasingly ambitious, complex and demanding: ultra-deep waters, extreme climates, mega-sized projects, non-conventional resources and optimization of environmental performance.

Texas RT Systems

Texas RT Systems (TRTS) is a start-up located in Houston, Texas. However, keep in mind that this is not some basement operation. The founder and CEO of TRTS is Holly Frost, a global leader in technology. Holly is the former CEO and owner of the company Texas Memory Systems (TMS), a company that created memory systems the size of a DVD player while IBM relied on multiple machines each the size of a refrigerator. In 2012, Holly sold his state of the art product (the RanSan-630 Flash System) and his company, TMS, to IBM. With TRTS, Holly hopes to change the technology industry once again.

U.S. Department of State, Bureau of Diplomatic Security

The Bureau of Diplomatic Security (DS) is the security and law enforcement arm of the U.S. Department of State. It bears the core responsibility for providing a safe environment for the conduct of American diplomacy. DS is the most widely represented U.S. law enforcement and security organization in the world and protects people, property, and information at 275 State Department facilities around the globe. To achieve this mission, DS is a leader discovering and mitigating terrorist threats to American lives and facilities, mounting international investigations, and generating innovations in cyber security and physical security engineering.

All U.S. Department of State careers and internships require U.S. citizenship. The U.S. Department of State is an equal opportunity employer.

US Patent and Trademark Office

The U.S. Patent and Trademark Office (USPTO) is the government agency responsible for granting intellectual property rights for patents and trademarks. The USPTO employs a staff of over 6,000 people who support the major function of the examination and issuance of patents and the registration of trademarks. At the USPTO, our engineers and scientists make decisions every day that play a crucial role in fostering economic growth and creating jobs. Patent Examiners use a combination of technical research and legal analysis to evaluate and determine whether to grant patent protection for new inventions. Patent examiners promote progress while getting a first hand look at cutting edge technology. We are located in a new campus style setting in Alexandria, Virginia outside Washington, D...

ValvTechnologies, Inc. is the leading manufacturer of metal seated valves. Our experience in all types of severe service applications has given us an in-depth understanding of how problems affect both the valves and the whole process. Today's industrial processes run at high temperatures, under high pressures and in erosive environments. Catalyst reactions promote corrosion and fouling of equipment, yet hazardous materials and pollutants must be kept out of the environment. Yesterday's valves were never intended to operate under these conditions and have published acceptable leakage rates, even when brand new. At ValvTechnologies, we will not ship a valve unless it shuts off completely. We test every valve we make according to ASME/ANSI standards.
